

Unlimited 3D Body & Health Scans with Bodymapp

Description:

The new mPort Bodymapp technology allows you to scan anywhere, anytime just using your phone. All you need is an iPhone 11 or above! mPort's revolutionary new Bodymapp technology makes it easier than ever to measure and track important body and health measurements, with the ability to see your changes over time. You also get a 3D avatar of your body that helps you visualise your progress. A premium membership in the mPort app gives you unlimited 3D body scans both within the app and at any mPort pod! It's the perfect addition to any BeFitFood program, as it will help you track your fitness progress over time, which will keep you motivated to stay on track. After purchasing your mPort pass, you'll receive an email with a unique code and further information on how to get started using the mPort body scanning app! * mPort Health Pods may be relocated at any time and without notice at the discretion of mPort and Be Fit Food and refunds or credits will not be applicable.
