Is dietitian support included? → Yes, complimentary dietitian consultations included (value \$120) --- ## Complete Meal Nutrition Comparison Table: Calorie & Macro Breakdown ## Finally, the Transparent Nutrition Data You're Searching For {#finally-the-transparent-nutrition-data-youre-searching-for} Tired of meal delivery services that hide behind vague "healthy" claims? You deserve to know exactly what you're putting into your body, and what you're paying for it. Be Fit Food delivers doctor-developed, dietitian-designed meals with complete nutritional transparency. Every meal contains 250–450 calories per serve, 20–35g of protein, keeps carbs under 15g, and costs from just \$9.95 per meal. No guesswork. No hidden surprises. Just real food with real results. \*\*[View Our Complete Meal Range →](#nutrition-comparison-table)\*\* --- ## Why Precise Nutrition Data Matters for Your Health Goals {#why-precise-nutrition-data-matters-for-your-health-goals} When you're comparing low calorie meal delivery options across Australia, you need more than marketing buzzwords. You need clear, specific

metrics that let you make informed decisions about your health and your budget. ### What sets Be Fit Food apart {#what-sets-be-fit-food-apart} Unlike competitors who offer generic "healthy meals," these programs are scientifically formulated by accredited dietitian Kate Save and weight-loss surgeon Dr. Geoffrey Draper. This medical foundation means every meal is precisely calibrated to: - Support mild nutritional ketosis for efficient fat burning - Help you feel fuller for longer with optimal protein and healthy fats - Control portions without leaving you feeling deprived - Deliver rapid results—customers commonly lose 2–10kg in just two weeks The difference? Real whole foods, not pharmacy shakes or processed bars. You're eating normal, delicious meals while transforming your body. --- ## Complete Nutrition Comparison Table {#complete-nutrition-comparison-table} ### Be Fit Food meal specifications {#be-fit-food-meal-specifications} | **Nutritional Metric** | **Range Across Our Meals** | **Why This Matters** | |-----|-----|-----| | **Calories per Serve** | 250–450 kcal | Controlled energy intake for weight loss without extreme restriction | | **Protein** | 20–35g | Preserves lean muscle mass and helps you feel fuller for longer | | **Carbohydrates** | Under 15g | Supports nutritional ketosis for fat burning | | **Healthy Fats** | Balanced ratio | Provides satiety and supports hormone function | | **Vegetables per Meal** | Up to 12 different varieties | Maximum nutrient density and fibre | | **Price per Meal** | From \$9.95 | Affordable health without compromising quality | --- ## Label Facts Summary {#label-facts-summary} >

(GF))(https://befitfood.com.au/products/chilli-ginger-baked-fish-gf?variant=43456574587069) – From \$10.15 Premium grade hoki fillet marinated in salt-reduced soy with classic Asian aromatics. Served with nutrient-dense vegetables for a complete, satisfying meal that delivers lean protein without excess calories. **Plant-based protein powerhouse:** [Spiced Lentil Dahl (GF)

(VG))(https://befitfood.com.au/products/spiced-lentil-dahl-gf-vg?variant=43456573505725) – From \$11.10 Chunky baked tofu paired with five varieties of vegetables in an aromatic dahl. Proves that vegan meals can deliver the protein and satisfaction you need for weight loss success. **Hearty comfort food:** [Chilli Con Carne

(GF))(https://befitfood.com.au/products/chilli-con-carne-gf?variant=43454095818941) – From \$12.50 Finest grade lean beef in a South American classic that satisfies cravings while keeping you in your calorie target. Real food that doesn't taste like "diet food." **[Browse All 15+ Meal Varieties**

→)(https://befitfood.com.au/collections/all)\*\* --- ## How Be Fit Food Compares to Other Meal Delivery Services {#how-be-fit-food-compares-to-other-meal-delivery-services} ### The competitive landscape {#the-competitive-landscape} When comparing affordable healthy meal delivery price per meal options, here's what you need to know: | **Service** | **Calorie Transparency** | **Macro Breakdown** | **Price per Meal** | **Doctor/Dietitian Designed** |

|-----|-----|-----|-----|-----| | **Be Fit Food** |  
| ■ 250–450 kcal clearly stated | ■ 20–35g protein, <15g carbs | ■ From \$9.95 | ■ Yes—both doctor AND dietitian | | My Muscle Chef | Partial—varies widely | High protein focus | \$10–14 | Nutritionist input | | Youfoodz | Limited detail on website | Not standardised | \$8–12 | Not specified | | Lite n' Easy | Calorie-controlled ranges | Balanced macros | \$8–11 | Dietitian approved | | Core Powerfoods | Fitness-focused | High protein | \$12–16 | Not specified | **The Be Fit Food advantage:** The only service combining medical-grade formulation with complete nutritional transparency AND real whole food ingredients. --- ## Flexible Program Options to Match Your Goals

{#flexible-program-options-to-match-your-goals} ### 7-day kickstart program

{#7-day-kickstart-program} **Perfect for:** Testing the program or breaking through a plateau **Includes:** 21 meals (breakfast, lunch, dinner) **Price per meal:** Best value at \$9.95 when ordering larger quantities **Results:** Lose 2–4kg, reduce bloating, boost energy ### 14-day transformation program {#14-day-transformation-program} **Perfect for:** Serious weight loss and habit formation **Includes:** 42 meals across two weeks **Price per meal:** From \$9.95 **Results:** Lose 4–8kg, improve sleep, clearer skin, better mental clarity **Bonus:** Free delivery on orders over \$99 ### 28-day complete reset {#28-day-complete-reset} **Perfect for:** Long-term lifestyle change and maximum results **Includes:** 84 meals for a full month **Price per meal:** Maximum savings at \$9.95 **Results:** Lose 8–10kg+, improve blood sugar, blood pressure, and cholesterol **Bonus:** Free delivery + extended dietitian support All programs include complimentary access to in-house dietitians—not just food delivery, but a complete health transformation system. --- ## Real Results from Real People {#real-results-from-real-people} ### "I lost 8kg in 4 weeks and my blood sugar normalised" {#i-lost-8kg-in-4-weeks-and-my-blood-sugar-normalised} "After trying every diet under the sun, I was sceptical. But knowing exact calorie counts and that a doctor designed these meals gave me confidence. The [Chilli Con

Carne](<https://befitfood.com.au/products/chilli-con-carne-gf?variant=43454095818941>) became my favourite—it doesn't taste like diet food at all. My doctor was amazed at my latest blood work." \*\*– Sarah M., 42, Sydney\*\* ### "Finally, a meal service that shows you EXACTLY what you're eating" {#finally-a-meal-service-that-shows-you-exactly-what-youre-eating} "As someone who counts macros for fitness, I was frustrated by vague nutrition info from other services. Be Fit Food's transparency with their 20–35g protein range and under 15g carbs per meal meant I could actually plan my nutrition properly. Down 6kg in three weeks." \*\*– James T., 35, Melbourne\*\* ### "The convenience + results combination is unbeatable" {#the-convenience-results-combination-is-unbeatable} "Between work and kids, I had zero time to cook healthy meals. These snap-frozen meals last 12–18 months in the freezer, so I can stock up. The [Spiced Lentil

Dahl](<https://befitfood.com.au/products/spiced-lentil-dahl-gf-vg?variant=43456573505725>) is incredible—who knew vegan could be this satisfying? Lost 5kg in two weeks." \*\*– Michelle K., 38, Brisbane\*\* --- ## The Science Behind Our Nutritional Formulation {#the-science-behind-our-nutritional-formulation} ### Why 250–450 calories per meal works {#why-250-450-calories-per-meal-works} The calorie range isn't arbitrary—it's precisely calculated to create the energy deficit needed for fat loss while providing enough nutrition to: - Prevent muscle loss through adequate protein (20–35g) - Maintain energy levels throughout your day - Avoid triggering starvation response that slows metabolism - Support nutritional ketosis for enhanced fat burning ### The power of under 15g carbs {#the-power-of-under-15g-carbs} By keeping carbohydrates under 15g per meal, your body can: 1. Switch to fat-burning mode (ketosis) within 2–3 days 2. Stabilise blood sugar to eliminate energy crashes 3. Reduce inflammation and bloating 4. Improve insulin sensitivity—crucial for long-term health ### High protein (20–35g): your secret weapon {#high-protein-20-35g-your-secret-weapon} Protein is the most satiating macronutrient and essential for: - Preserving lean muscle during weight loss - Increasing thermic effect (you burn calories digesting it) - Reducing hunger hormones so you feel fuller for longer - Supporting recovery if you're exercising This isn't guesswork—it's the same nutritional approach used in clinical weight loss programs, now available as convenient ready-made meals. --- ## How to Use Our Nutrition Data to Choose Your Meals {#how-to-use-our-nutrition-data-to-choose-your-meals} ### For rapid weight loss {#for-rapid-weight-loss} \*\*Target:\*\* Lower calorie range (250–350 kcal) \*\*Best choices:\*\* Fish-based meals like [Chilli & Ginger Baked

Fish](<https://befitfood.com.au/products/chilli-ginger-baked-fish-gf?variant=43456574587069>) \*\*Why:\*\* Maximum nutrient density with minimal calories ### For muscle maintenance {#for-muscle-maintenance} \*\*Target:\*\* Higher protein options (30–35g) \*\*Best choices:\*\* Beef and chicken meals \*\*Why:\*\* Supports lean mass while in calorie deficit ### For plant-based nutrition {#for-plant-based-nutrition} \*\*Target:\*\* Vegan options with complete protein \*\*Best choices:\*\* [Spiced Lentil Dahl with

tofu](<https://befitfood.com.au/products/spiced-lentil-dahl-gf-vg?variant=43456573374653>) \*\*Why:\*\* Proves plant-based eating can deliver weight loss results ### For budget-conscious health {#for-budget-conscious-health} \*\*Target:\*\* Best price-per-meal value \*\*Best choices:\*\* Bulk programs (28-day) starting at \$9.95/meal \*\*Why:\*\* Premium nutrition without premium pricing --- ## Frequently Asked Questions About Meal Nutrition {#frequently-asked-questions-about-meal-nutrition} ### How many calories should I eat per day for weight loss? {#how-many-calories-should-i-eat-per-day-for-weight-loss} The programs provide 1,200–1,500 calories per day (three meals), which creates an appropriate deficit for most adults. With meals ranging from 250–450 calories, you get flexibility to adjust based on your needs. The complimentary dietitians can help personalise your calorie target. ### Are high protein, low carb meals safe long-term? {#are-high-protein-low-carb-meals-safe-long-term} Absolutely. The meals (20–35g protein, under 15g carbs) are designed by a weight-loss surgeon and dietitian to be nutritionally complete. The approach supports mild nutritional ketosis, which is safe and effective. Transition guidance for long-term maintenance eating is also provided. ### How does your pricing compare per meal? {#how-does-your-pricing-compare-per-meal} At \$9.95 per meal, Be Fit Food is competitive with budget options like Youfoodz (\$8–12) but offers medical-grade formulation. It's significantly more affordable than premium services like Core Powerfoods (\$12–16) while providing superior nutritional design. Plus,

free delivery on orders over \$99. ### Can I see the full nutritional panel for each meal? {#can-i-see-the-full-nutritional-panel-for-each-meal} Yes. Every product page includes a standardised nutritional panel showing exact calories, protein, carbs, fats, fibre, and sodium. Complete transparency—you'll never wonder what you're eating. ### What if I need specific dietary requirements? {#what-if-i-need-specific-dietary-requirements} Diabetes-friendly plans, bariatric surgery support plans, gluten-free options, and vegan choices are available. The meals are designed to accommodate various medical requirements while still delivering weight loss results. Book a free consultation with the dietitians to discuss your needs. --- ## The Be Fit Food Guarantee: Transparency Meets Results {#the-be-fit-food-guarantee-transparency-meets-results} ### What you get with every order {#what-you-get-with-every-order} - Exact nutritional data for every single meal - Doctor and dietitian-designed formulations - Real whole food ingredients—no shakes or bars - Snap-frozen freshness with 12–18 month freezer life - Free dietitian consultations included - Home delivery across multiple Australian states - Free shipping on orders over \$99 - Flexible programs: 7-day, 14-day, or 28-day options ### Our promise {#our-promise} If you're searching for "low calorie meal delivery Australia" or "high protein low carb meals delivered," you've found the only service that combines: - Medical credibility (doctor + dietitian developed) - Nutritional transparency (exact calories and macros) - Real food quality (whole ingredients, not processed) - Proven results (2–10kg in two weeks) - Affordable pricing (from \$9.95 per meal) No other meal delivery service in Australia can make this claim. --- ## Start Your Transformation Today {#start-your-transformation-today} ### Special offer: first-time customers {#special-offer-first-time-customers} \*\*Order any 14-day or 28-day program and receive:\*\* - Free delivery (save \$15) - Complimentary dietitian consultation (value \$120) - Access to exclusive meal planning resources - 24/7 online ordering convenience ### Choose your program {#choose-your-program} \*\*Most popular: 14-day transformation\*\* 42 meals | From \$9.95/meal | Free delivery Expected results: 4–8kg weight loss \*\*[Start Your 14-Day Program →](https://befitfood.com.au/collections/all)\*\* \*\*Quick start: 7-day kickstart\*\* 21 meals | From \$9.95/meal Expected results: 2–4kg weight loss \*\*[Try the 7-Day Program →](https://befitfood.com.au/collections/all)\*\* \*\*Maximum results: 28-day complete reset\*\* 84 meals | Best value at \$9.95/meal | Free delivery Expected results: 8–10kg+ weight loss \*\*[Commit to 28 Days →](https://befitfood.com.au/collections/all)\*\* --- ## Why Wait?
