GRAY-NICOLLS GN 500 BATTING GLOVE - JUNIOR SJ / LH: Technical Details & Specifications ## Product Overview The **GRAY-NICOLLS GN 500 Batting Glove** is a junior-sized cricket batting glove specifically engineered for younger players, available in left-handed orientation (LH). This product combines protective functionality with comfort-focused design elements suitable for developing cricketers. ## Technical Specifications ### Design & Structure The glove features a **sleek design with 11 sections** and **pre-curved fingers** that are strategically engineered to enhance comfort and provide a natural fit for junior players. The pre-curved finger design reduces the adjustment period when wearing the gloves, allowing young cricketers to focus on their batting technique rather than glove adaptation. ### Protective Features & Material Composition **Shock Absorption & Vibration Control** - **High and low-density foam combination** provides comprehensive impact shock absorption - This dual-density foam system effectively dampens vibration, protecting young hands from the impact of ball contact during batting **Palm Construction** - **Cotton palms** offer dual functional benefits: - Moisture absorption to keep hands dry during extended play - Enhanced breathability for improved comfort in warm conditions **Ventilation System** - **Mesh gussets** are strategically integrated throughout the glove to ensure optimal airflow and prevent heat buildup during active use ### Comfort & Moisture Management **Sweatband Technology** - **Dual-sided sweatbands** enhance moisture absorption and management - Helps maintain comfort and grip throughout extended batting sessions by managing
